1st Inspiring Quotes

Believe in yourself and all that you are.
Know that there is something inside you
that is greater than any obstacle.

Java Development

TASK LIST

Interns may be tasked with implementing algorithms, building applications, or contributing to existing codebases. The goal is to gain hands-on experience, improve Java skills, and demonstrate problem-solving abilities in real-world scenarios.

TASK 1

ATTENDANCE MANAGEMENT SYSTEM

Create an attendance management system for university-level graduates using Java, following the MVC architecture, and employing Maven as a build tool. This system utilizes MySQL or another database for backend data management and deploys on a Tomcat server to allow live access and usage.

TASK 2

WORD COUNTER

A simple project for beginners is good to start. It can be built using Swing in Java. Here, the application tells you the no of words, the entered paragraph has.

SUBMISSION DETAILS

You will have to provide task submission for each task(weekly task)

It's essential for each intern to complete all the assigned tasks. If someone completes only one or two tasks, their internship may be considered incomplete or certificate will not be provided, So Please make sure to fulfill all the tasks assigned to you and submit in Submission form to ensure a successful Internship.
